

Working with Projects

Step by step workflows

Create a New Curio Project with an Initial Idea Space

1. Choose File > New, or hold Shift and click the Projects toolbar button.
2. Choose a personal or bundled idea space style or template to use as your initial idea space.
3. Click the Choose button.

Create a New Curio Project with a Blank Initial Idea Space

- Choose File > New Blank Project, or choose File > New and choose the blank bundled idea space style or click the Blank button.

Create a New Curio Project Which Is Absolutely Empty

1. Choose File > New.
2. Hold the Option key and the Blank button will change to Empty. Click the Empty button.

Create a New Curio Project Based on a Project Template

1. Choose File > New From Project Template, or hold Shift-Option and click the Projects toolbar button. This New Project From Template Gallery is described in detail below.
2. Choose a personal or bundled project template. Or choose the Blank template to create a project with a blank initial idea space.
3. Click the Choose button. Alternatively you can click the Blank Project button to create a project with a blank initial idea space.

PRO

Create a New Curio Project with Master Idea Space Templates

1. Choose File > New.
2. Select a template tag name and click the *Use Tagged Set as Masters* button.
3. A new project will be created where all of the idea spaces in the tagged set will be added to the project as master idea space templates.

Open an Existing Curio Project

1. Choose File > Open menu to see the standard Open dialog.
2. Choose File > Open Recent to instantly choose a recently-opened project.
3. Choose File > Open From Gallery or click the Projects toolbar button to see Curio's Open Project Gallery, which is explained in detail below.

Save a Curio Project

- Your projects will save themselves automatically using OS X's native autosave feature, however you can also choose File > Save at any time to save your project immediately.

Save a Curio Project as a Project Template

- Choose File > Save As Project Template.

Delete a Curio Project

- Within the Finder, drag the Curio project from wherever you saved it to the Trash.

Archive a Curio Project

1. Choose the File > Create Archive menu item.
2. This will create a copy of your current project with all aliased assets converted into embedded assets, suitable for backup or storage.
