

About This Project

Enjoy this tour of Curio!

This *Welcome* document provides a brief overview of Curio's amazing features, but we didn't want to overwhelm you so the information is carefully grouped for easy consumption.

Getting Started

In the top-left corner of the window you'll find an area which divides this *Welcome* project into several sections. Currently you're in the *Getting Started* section which provides an overview of Curio's interface and main functionality.

Documentation

The *Documentation* section provides more details on key elements within Curio. Most importantly it will also include embedded live web views to video pages on the Zengobi website. This way as we add video tutorials you can immediately access them via these dynamic pages.

Samples

Lastly, the *Samples* section is a fun showcase of what you can create with Curio. Definitely check it out!
