

Project Image

Give your project a custom image

To view the project inspector panel, click on the background of the current idea space then either (a) click the little briefcase icon in the inspector bar or (b) click the Inspector toolbar button to open the inspector shelf then look at the Project tab.

Project Image

Set an optional image for your project by copying an image and pasting into the provided image well. This image will be used as the project thumbnail in the Finder, the Open Project Gallery window, and the Status shelf.

Next to the image well is a helpful “image assistants” popup menu. Here you will find quick access to popular textures and sample images via Google Image Search which you can drag and drop into the project image. Then you can use the assistance popup menu to apply a binder or journal appearance to the image.

Alternatively, the assistants popup also includes a number of template icons you can use for your project image. A color control sits alongside the assistants popup which you can use to tint the template to any color you wish.
