

# Stack Inspector

## *Change stack properties*

---

To view the stack inspector panel make sure you have a stack selected, like the one below, then use the Stack button on the inspector bar or the Stack tab in the inspector shelf.

### A Stack

Select this stack so you can see the changes to the inspector bar and inspector shelf.

## Stack Options

Toggle the display of the stack title.

### Sorting

Change the automatic sort ordering. By default, you can manually rearrange items in the stack. Just drag items up and down the stack to arrange them in any order you wish.

However, you can also tell Curio to keep the stack automatically sorted by title, creation date, modification date, due date, start date, start date or end date if already started, percent completed, priority, or rating. You can specify a secondary sort as well.
